PROJECT SUMMARY/SCOPE OF WORK:

Development of a new 5.3-acre population-based neighborhood park in the Allied Gardens/Tierra Santa community that will provide recreational amenities for the neighborhood.

MEETING GOALS:

- This is the second meeting, and we will summarize previous workshop notes and recommendations from the first workshop, which had robust participation. We will repeat an overview of the site conditions.
- We will discuss the steps for the General Development Plan and overall schedule for the park development.
- Design team will present park concept design alternatives.
- Participants will discuss concept designs, preferences and give feedback. Design team will gather input, feedback and priorities from the public for incorporation into the park development plan that will be presented in the third meeting.
